Acknowledgments

This project was made possible by a timely opportunity. Teachers and school administrators from Santa Rosa County, Florida expressed interest in resources to help teach students about using wood for energy; at the same time, educational and outreach materials from two regional projects (Wood to Energy Outreach Program and Sustainable Forestry for Bioenergy and Bio-based Products Program) were developed. Using funding from the School of Forest Resources and Conservation and the Southern Forest Research Partnership, we adapted information from the two projects and developed educational activities. Teachers in Santa Rosa County provided critical input in the development of this program and pilot tested the activities in 2008.

A number of team members, reviewers, and assistants have worked on these materials. They conducted research, found background information, and wrote, reviewed, and edited materials. Their contributions have been extremely important to the development of this education program.

Education Program Development Team
Jessica J. Tomasello Ireland, Education Program Coordinator
School of Forest Resources and Conservation, University of Florida
Martha C. Monroe, Professor
School of Forest Resources and Conservation, University of Florida
Annie L. Oxarart, Education Research Associate
School of Forest Resources and Conservation, University of Florida

Teacher Advisory Committee
Tracy Hodges, Milton High School
Steve Locklin, Milton High School
Angie Willis, Milton High School

Woody Biomass Specialist
Marian Marinescu, Assistant Professor
West Florida Research and Education Center, University of Florida

Education Specialist
Linda Cronin-Jones, Associate Professor
School of Teaching and Learning, College of Education, University of Florida

Education Program Assistants
Lauren McDonell, Wood to Energy Program Coordinator
School of Forest Resources and Conservation, University of Florida
Missy James, Professor
Tallahassee Community College
Todd Levasseur, Graduate Assistant
Department of Religion, University of Florida
Tyler Nesbit, Graduate Assistant
School of Forest Resources and Conservation, University of Florida

Additional Authors
Matthew Langholtz, Project Director
BioResource Management
Co-Author of Activity 14: Creating a Woody Biomass Supply Curve
Alan Hodges, Extension Scientist
Food and Resources Economics, University of Florida
Co-Author of Activity 15: Regional Economic Impact Analysis
Mohammed Rahmini, Coordinator of Economic Analysis
Food and Resources Economics, University of Florida
Co-Author of Activity 15: Regional Economic Impact Analysis
Marian Marinescu, Assistant Professor
West Florida Research and Education Center, University of Florida
Co-author of Activity 11: Woody Biomass as a System

Reviewers
Michael Andreu, Assistant Professor
School of Forest Resources and Conservation, University of Florida
Phillip Badger, Bioenergy Technical Manager
Southern States Energy Board
James L. Campbell, Power Generation Consultant
Linda Cronin-Jones, Associate Professor
School of Teaching and Learning, College of Education, University of Florida
Peggy A. Hill, Teacher
Palmetto High School
Geetha Iyer, Graduate Assistant
School of Forest Resources and Conservation, University of Florida
Alan Long, Professor
School of Forest Resources and Conservation, University of Florida
Marian Marinescu, Assistant Professor
West Florida Research and Education Center, University of Florida
Jarek Nowak, Forest Utilization Specialist
Florida Division of Forestry
Jennifer Seitz, Public Education Coordinator
Office of Waste Alternatives, Alachua County Government
