

The School of Forestry and the Ecological Restoration Institute at Northern Arizona University invite applications for the position of Assistant Professor of Forest Biostatistics and Ecological Modeling. This is a 9-month, tenure-track appointment, with an anticipated start date of 8/17/2012. The successful applicant will be expected to teach courses at the undergraduate and graduate levels (e.g., forest biostatistics, research design, simulation or process modeling, multi-model inference, structural equation modeling, sampling), develop a productive, externally-funded research program, and advise graduate students. The minimum qualification is an earned Ph.D. conferred by start date and at least on degree in natural resources or a related field. Please see <http://hr.nau.edu/node/2620> for full position announcement.
