Southeastern Forests and Climate Change
Secondary Educator PLT Workshop

Saturday, January 24, 2015, 9am to 5pm
Jacksonville Zoo and Gardens, Jacksonville, Florida

This workshop will introduce a new Project Learning Tree (PLT) secondary module on climate change impacts on southern forest ecosystems, the role of forests in sequestering carbon, and strategies for reducing greenhouse gas emissions and adapting to changing climatic conditions.

The module includes 14 engaging activities designed for use in life science, environmental science, and agriculture classes in grades 9-12, with adaptations for use in middle school classrooms. To learn more about the material, please visit http://sfrc.ufl.edu/extension/ee/climate/.

Participants will leave with a copy of the module and will have the option of purchasing another PLT secondary module, Focus on Forests.

Participants will also be able to explore the zoo from 4pm to 5pm!

This workshop is offered to teachers and non-formal educators at no cost and lunch will be provided.

Registration information is available at http://www.eventbrite.com/e/project-learning-tree-secondary-workshop-southeastern-forests-and-climate-change-registration-14506377967
