Southeastern Forests & Climate Change Workshop

Saturday, April 11, 2015
9:00 AM until 3:00 PM
(Date & Time)

St Marks National Wildlife Refuge
Nature’s Classroom
(Barred Owl Room)
(Place)

For middle school and high school teachers, non-formal educators, agency personnel and leaders of youth organizations

This workshop will introduce a new Project Learning Tree (PLT) secondary module on climate change impacts on southern forest ecosystems, the role of forests in sequestering carbon, and strategies for reducing greenhouse gas emissions and adapting to changing climatic conditions.

The module includes 14 engaging activities designed for use in life science, environmental science, and agriculture classes in grades 9-12, with adaptations for use in middle school classrooms. To learn more about the material, please visit http://sfrc.ufl.edu/extension/ee/climate/

Participants will receive the Southeastern Forests and Climate Change module with additional option of obtaining the Focus on Forests module.

To register contact: go to event brite at https://eventbrite.com/event/15814827575/
$5.00 registration fee, coffee will be provided.
