

Majoring in

Forest Resources & Conservation

Specialization: Environmental Pre-Law

Environmental Pre-Law provides a solid undergraduate basis of forest and natural resources science and management upon which is built a broad introduction to the policies and processes affecting the use of natural resources. The program emphasizes sustainable, multiple-use management and includes substantial field work and group projects.

Summer B			
	FOR3200C	Foundations in Natural Resources and Conservation	3 credits
	FOR3434C	Forest Resources Information Systems	3 credits
Fall			
	FNR3410C	Natural Resource Sampling	3 credits
	SWS3022	Soils in the Environment or geomatics course	3 credits
	SWS3022L	Soils in the Environment Lab(Optional)	1 credit(Optional)
	FNR3131C	Dendrology/Forest Plants	3 credits
	FOR3153C	Forest Ecology	3 credits
		Advisor approved directed elective	1 credit
Spring			
	FOR3162C	Silviculture	4 credits
	BUL4310	Legal Environment of Business	4 credits
	FOR3202	Society and Natural Resources	3 credits
	PUP3294	Politics and Ecology	3 credits
Summer			
	Practical Work Experience (internships, temporary work, etc.)		
Fall			
	AEB4242	International Trade Policy in Agriculture	3 credits
	FNR4660C	Natural Resource Policy and Administration	3 credits
	FOR4020	Seminar in Contemporary Issues in Forest Resources & Conservation	1 credit
	SUR4403	Cadastral Principles	3 credits
	AEB4085	Ag Risk Management & the Law	3 credits
Spring			
	AEB4126	Agricultural & Natural Resource Ethics	3 credits
		or POT3503 Environmental Ethics	
	FNR4343C	Forest Water Resources	3 credits
	FOR3214	Fire Ecology and Management	2 credits
	FOR3214L	Fire Ecology and Management Lab(Optional)	1 credit(Optional)
	FNR4623C	Integrated Natural Resource Management	3 credits
	AEB4123	Agricultural & Natural Resource Law	3 credits
		or PAD4604 Administrative Law & Regulatory Politics
