Teacher Workshop for Educators of Children Ages 3 to 7

Join us at Brevard Zoo for a WILD adventure into the woods as we rediscover our own sense of wonder through engaging, environmental experiences! Hands-on activities will offer exciting teaching ideas for integrating nature-based exploration, art, literature, math, music, movement and outdoor play into early childhood education programs, all while building literacy skills and environmental appreciation through wildlife-based educational activities. Dress comfortably for both indoor and outdoor activities. Pack a lunch or buy one at the Zoo.
